**Information to all Customers of
Schedule Coordination Austria GmbH**

With the approval of the Federal Ministry for Climate Action, Environment, Energy, Mobility, Innovation and Technology (BMK), SCA is authorized to charge a "Schedule Coordination Fee" (SCF), which is collected by the airport operators on behalf of SCA from the aircraft operators.

As informed during the consultation process and with the approval of the BMK, SCA will change the SCF as of **January 1st, 2024**, to

2,70 € per movement.

This change becomes necessary due to the development of costs in Austria during the last years and the expected traffic development for the future.
