

SCA/KO/PV/AS/132

Information about SAL / virtual SCC for S21

SALs for VIE, GRZ, INN, KLU, LNZ and SZG were sent out on Thursday, Nov. 05th.

Following some information regarding the feedback to the SALs:

All O and H data lines shown on the SAL will be automatically put on the waitlist for possible later improvement. Therefore SCR-reply with code P is NOT necessary!
If you do not want to be placed on the waitlist / if you can accept the offered timings please send us an SCR-reply with code A.

ATTENTION – Specific arrangements for S21

Capacity parameters:

Because of the very specific actual situation of the COVID-19 crisis including the restrictions for aviation, so far no conditions set by the Government for a safe and hygienic aviation with regard to distances etc. are available.

So far the SALs are based on the existing and publicly available capacity parameters at the given airports.

Therefore the SAL data are subject to possible changes of parameters due to the COVID-19 crisis and its consequences.

T-code for New submitted slot-series:

With EC Regulation 2020/1477 the “waiver of the 80/20 rule” is extended to all slots allocated between 1st March 2020 and 27th March 2021.

We have coded therefore all slot-series submitted for VIE with Historic Status Code N, Y, B or V with Action Code –T-.

Those “new” series will have to meet the regular 80/20 conditions and will be exempted from a Waiver. For more details please see separate Information “123/2020 InfoSlot Waiver” on our webpage.

First virtual Slot Conference (SC147)

SCA will participate at the first virtual Slot Conference and we are already registered and customized in the Swapcard-APP of IATA.

You can book online appointments for TUE/WED/THU 09-12 and 13-15 LT with Andreas Sager for all Austrian airports. Please contact us via e-mail if you need some more information.

Best regards and stay safe!
